

Thursday afternoon mayor Davis conferred with county judges E. H. McClintock relative to the operation of the clinic, as at a recent meeting of county commissioners he had voiced his claims it because of the great expense. When the two officials met the matter was quickly solved, however, in Davis stating that the city desired to hold up its end, by paying 50 percent of the cost for food and medicine. There is an average number of 60 patients in the clinic, fed at a cost of 10 cents per day, making the city's share of the expense, \$15 per day.

**Solving Hot Harmony.**

"There was nothing hot harmony between the city council and county commissioners in regard to the matter," said mayor Davis. "The matter of paying for the subsistence of the patients will be taken up at the next meeting of the council, as it is desired to immediately reduce the city's share of the expense it has incurred in feeding the patients."

At the time of the meeting of the city council Thursday morning, all present favored the joint maintenance of the clinic, the city and county to share the cost of the clinic and county to share the expense in the operation of the clinic.

Arizona Cattlemen Gloss  
Convention; Meet Next  
Year At Tucson.

Phoenix, Ariz., Feb. 14.—The Arizona Cattle Growers' association closed its 15th annual session last night after passing resolutions, condemning what it termed the tendency of the food supply of the nation to drift into the hands of a few men; criticizing government administration of railroads, but recommending legislation for federal control; urging Mexican border arrangements to per-

and grazing in the state of Sonora, asking regulations for checking the Mexican frontier trade in stolen cattle and horses and creating for the federal control of the unappropriated public domain.

**Mullen Again President.**

Tucson was chosen as the next meeting place, and Charles C. Mullen, of Skull Valley, was re-elected president.

A hot debate was precipitated over a resolution, wording what was termed the effects of Frank J. Benson's letter to the stockmen against the stockmen. The resolution finally passed, placing the association on record as refusing to endorse Henry's alleged charges against the federal control of the cattle industry.

**Woman Urges Regulation.**  
Washington, D. C., Feb. 14.—Government regulation and control of the meat industry was urged before the house's interstate commerce committee today by Mrs. J. J. Kelly, general secretary of the National Consumers' league.

Mrs. Kelly told the committee the consumers of the country were hampered in their purchases of meat because of the restrictions in the packing business and that they would not "let congress rest" until definite action had been taken. She said that if the government would regulate the packing business, the price would be reduced and the poor would be able to buy it again. Thousands of persons in the large offices

**ARIZONA SELLS \$140,000 RANCH THROUGH EL PASO**

W. D. McKeehan, of Guaymas, Ariz. has sold to the Canyon Cattle Co., El Paso, the X-U ranch, known as Carlisle and Illie Creek ranches, east of Guaymas, Ariz. in Grant county, N. M. The ranches are on the north side of the Rio Grande river and include a small tract to be about 10 miles square in area.

With the ranches go 1500 head of grade Herefords. The value of the property included in this deal is given as \$140,000. The sale was made through W. E. Hale, of the real estate

**PLAN TO FEFE STOCKMEN.**  
The entertainment committee of the chamber of commerce met at 11 o'clock Friday, and went over the plans for the entertainment of the stockmen's Panhandle & Southwestern Stockmen's association to be held in El Paso in March.

**LARD OFF WAR LIST.**  
Effective Friday, February 14, as announced by the war trade board are the following removals from the conservation list: All kinds of lard com-

holdings are exactly the same as the rest of the Parrook well. The water is entirely next to the famous Parrook well. The well began flowing at a rate of 800 barrels of oil per day. A pipe line from the well was laid, and the Parrook well was filled with sand in a few days. The well was then increased to 800 barrels. Many of the wells in the area are now producing at a rate of 800 barrels per day.
